

February 2024: Thought for the month: I am Conscious of my purpose and role in Life.

1. "Could you say something about one's purpose in life?"
2. I am happy to do so.
3. We must distinguish first between one's purpose and one's role.
4. All human beings, from a Spiritual perspective, have the one, same purpose.
5. "What is that one purpose that we all have in common?"
6. The one purpose that we all have in common is to bring "Consciousness" to the planet.
7. To have people "wake up" to the God-Spirit that is within them.
8. So many people are "unconscious"; their world runs them.
9. So many people allow other people or life's situations to control them.
10. Of course, such people would never admit this. They think that they're "free".
11. "Is that why they are 'unconscious'?" Yes, precisely.
12. "So, we all have a common purpose of bringing Consciousness to the planet.
13. "What then do you mean by 'roles'?"
14. Roles are how people bring Consciousness into manifestation.
15. Some people's roles will be as parents or teachers.
16. Some roles will be as factory workers or beauticians.
17. Whatever the role, we all have the same purpose: To bring Consciousness to the planet.
18. "What's the problem, then?"
19. Actually, there are two problems.
20. First, as I said, many people are Spiritually unconscious.
21. Many people just have not awakened yet.
22. And, the second problem follows from the first one.
23. Because many people are Spiritually unconscious, they become lost in their creations.
24. "What do you mean by 'lost' in their creations?"
25. Many people allow their creations to control them.
26. Many people get imprisoned by their life situation, and thus forget their purpose.
27. "I see what you mean. I know a lot of people who get 'lost' in their everyday stuff."
28. Yes, you put it quite well.
29. "I guess it's time for all of us to 'wake up'." GOOD IDEA!!!
