

October 2024
Thought for the month: Are we alone in the Universe?

1. "You are really excited about the recent report of the Cosmic Citizens Committee, aren't you?"
2. I am because it really helps us to consider "beyond-human" intelligence in the Universe.
3. This question: "Are we alone in the Universe?" is very important to consider.
4. "What did you like most about the report?"
5. I really appreciated its thoroughness in such a few pages.
6. "Can you remind me about why you wanted this report to be made?"
7. Yes, of course. I wanted the members of Now Creations to be informed about this important topic.
8. I wanted the report to be clear and easily understood, yet have depth.
9. "What did you think were the report's best parts?"
10. I liked the reactions of the Navy and civilian pilot's section.
11. I also liked the megalith structures. How did these structures get built?
12. I also liked the testimony of the military people who were "in the know".
13. I also liked the idea of having a hearing before the Senate, and the proposed legislation.
14. I also like the idea of the academic community embracing the issue of UAPs.
15. "It seems like you liked everything about the report"?
16. I did.
17. "Was there anything in the report about 'crop circles' and the 'Roswell incident'?"
18. Yes, they both are in the report.
19. Do you want to know how many times I read the report?
20. Yes, and please tell me why you read it so many times."
21. I read it seven times because I wanted to thoroughly digest it.
- 22. Garlic planting day! The picnic attendees will know what this means.**
23. I have committed the 10 reasons to memory.
24. "There must be a bigger reason for your effort."
25. There is. We live in a vast Universe that the James Webb Telescope is exploring
26. And, the government does not seem to be forthcoming about this important issue.
27. Wouldn't you want to know if there were other non-human intelligences?
28. "Yes, I would--I guess that I never gave it much thought
29. That's why the CCC report is so important. Please read it.
30. "How do I read it again?"
31. Just go to our website and click on the "Cosmic Citizens Committee Reports"; it will be the first one.
