

March 2026

Thought for the month: I have decided to make a difference in Life.

1. "I want to tell you something, and I think that you will be proud of me."
2. What is it?
3. "Well, do you remember those two email reports that you sent to me?"
4. Yes, of course.
5. **Today is the 21st Anniversary of Now Creations!!!**
6. "Well, I read both of those reports, and I really liked them."
7. "The first was by the Cosmic Citizens Committee on those UAP things, those Unidentified Anomalous Phenomena."
8. "I never paid much attention to that type of thing in the past."
9. "And, guess what: I sent the letters to my Congressional representatives!"
10. "I never did something like that before."
11. Wow, good for you. Your concern is making a difference.
12. "The second report was from the Members Committee on 'Personal Outreach'."
13. "And, guess what: I began to outreach to some of my family and friends."
14. "I had never done this before."
15. What did your family and friends say?
16. "They loved it--it made them feel good."
17. "They thanked me again and again for being so thoughtful."
18. "It was such a wonderful thing to do for both them and me."
19. Well, now I have a question for you?
20. What made you respond to these two outstanding reports?
21. "I thought that you would ask me this question, and this is my answer."
22. "I realized that I had to start doing my part in Life."
23. "I realized that I was always waiting for someone else to do something."
24. "I would just keep on complaining about what was wrong, but didn't do anything about it."
25. "Those two reports woke me up!"
26. "They gave me an easy and reasonable way to start making a difference."
27. "Also, I started to read more about UAPs."
28. "By the way, I really enjoyed that last CCC report, especially on the 'five observables'."

29. "And when people ask me 'What's new?', I tell them about these two reports."

30. "I also tell them they can also read them on the Now Creations website."

31. You are becoming a spokesperson for Now Creations and for Life! Thank you.
